

Cladstone

Product Presentation

Cladstone

- Nature's beauty turned into Cladstone
- Cladstone is unique and fascinating. Not only because it is the flexible sandstone, it is also a visual sensation: Rock formations naturally grown in 40 million years bestow every object with an exclusive and unmistakable character.
- Timeless fascination even in each and every detail.

Cladstone

Cladstone

- Our environment- friendly procedure has made it possible to slice sandstone from sand facade in thin layers of just 1-3 mm.
- The resulting Cladstone is incomparably light, weighing just around 5 kg/m².
- Ideal for any building project.

Cladstone

- **Special based layers render Cladstone mouldable and make it decidedly practical for further processing.**
- **It can be perfectly adapted to any perceivable shape - curves, domes, depressions or edges.**
- **Continuous and joint less applications.**

Fields of application

- Sandstone is suitable for both domestic and commercial use. It is highly acclaimed for its natural beauty, that makes it useful for interior as well as exterior decoration.
- Because of its architectural properties, sandstone is found suitable medium that is used to clad walls and floors and churn out an enamoring range of handcrafted artifacts such as garden ornaments, sculptures and other decorative items.

Fields of application

- fire places
- pillars
- fountains
- interior decoration (lifts, bathrooms, kitchen furniture, work surface etc.)
- landscaping elements where the sense of lightness needs to be retained or in interior decorations to make the most of the limited space available
- lighting elements (lamps, illuminated walls etc.)

Cladstone

Cladstone

- **With Cladstone all wishes come true: the design possibilities are endless, because of very good environmental compatibility, Cladstone can be used anywhere - and the processing is conceivably simple. Use Cladstone for surfaces and moldings. The warm character of the natural sandstone harmonizes with almost any ambience.**
- **In the living area:**
 - doorways, hallways, staircases, work spaces, saunas, kitchens, bathrooms, living rooms, bed rooms, children's rooms, terraces and many more.
- **In the business areas:**
 - banks, offices, reception areas, restaurants, hotels, conference centers, stores, indoor pools, wellness and saunas and many more.
